### Overall Measures

### Student Outcomes

### School Comparison

Results achieved by students at this school compared to students at other Victorian government schools.

Whether this school, taking into account its students, is performing higher than, lower than, or broadly similar to other schools, taking into account their students.

#### 1. Student Learning

Combining teacher assessments from the Victorian Essential Learning Standards (VELS), the results from the National Assessment Program – Literacy and Numeracy (NAPLAN) tests and the Victorian Certificate of Education (VCE).

#### 2. Student Engagement and Wellbeing

Combining student attendance rates and results from the annual student *Attitudes to School* survey.

#### 3. Student Pathways and Transitions

Combining the number of students remaining at school through to Year 10 and students going on to further study or full-time employment from Years 10 to 12.

### School Profile

- Average level of parent satisfaction with the school, as derived from the annual *Parent Opinion* survey. The score is reported on a scale of 1 to 7, where 7 is the highest possible score. 1 7
- Average level of staff satisfaction with the school, as derived from the annual *Staff Opinion* survey. The score is reported on a scale of 1 to 5, where 5 is the highest possible score. 1 5
- Overall socio-economic profile low low-mid mid **mid-high** high  
Based on the school's Student Family Occupation index which takes into account parents' occupations.
- Proportion of students with English as a second language low **low-mid** mid mid-high high
- All Victorian government school teachers meet the registration requirements of the Victorian Institute of Teaching ([www.vit.vic.edu.au](http://www.vit.vic.edu.au)).

**4. Teacher assessments from the Victorian Essential Learning Standards (VELS)**

Percentage of students in Years 7 to 10 with a grade of C or above in:

- English and Mathematics
- All other subjects

The grades are the same as those used in your child's end of year report.

A 'C' rating means that a student is at the standard expected at the time of reporting.

**Results: Numeracy 2008-2009 (2-year average)**

Being the first year of secondary school, Year 7 NAPLAN is not used for the School Comparison.

**6. NAPLAN Year 9**

Average score achieved on the NAPLAN Reading and Numeracy tests conducted in May each year.

Year 9 assessments are reported on a scale from Bands 5-10.

Bands represent different levels of achievement. For Year 9, the National Minimum Standard is at Band 6.

**7. Victorian Certificate of Education (VCE)**

Mean study score from all VCE subjects undertaken by students at this school.

This includes all Unit 3 and 4 studies (including those completed in Year 11) and any VCE VET studies awarded a study score. The maximum student study score is 50 and the state-wide mean (including government and non-government schools) is set at 30.

Percent of students in 2009 who satisfactorily completed their VCE: 97%

Percent of Year 12 students in 2009 undertaking at least one Vocational Education and Training (VET) unit of competence: 35%

Percent of VET units of competence satisfactorily completed in 2009: 84%

Percent of Victorian Certificate of Applied Learning (VCAL) credits satisfactorily completed in 2009: 97%

# How to read the Government School Performance Summary 2009

The Victorian Government School Performance Summary provides an overview of how this school is performing, and how it compares to all other Victorian government schools.

All schools acknowledge the partnership and support of their parents and the community in working together to improve outcomes for children and young people.

By sharing this information with the community, our goal is to identify where we need to improve and to work together to achieve excellence in every school.

The **fourth page** outlines what your school is doing to improve its results.

## What are student outcomes?

*Student outcomes* show the achievements of students in this school in English, Mathematics and other subjects. They also show results in national literacy and numeracy tests and, for secondary colleges, the Victorian Certificate of Education (VCE) examinations. They provide important information about student attendance and engagement at school.

For secondary colleges, the Government School Performance Summary also provides information about how many students at this school go on to further studies or full-time work after leaving school.

You can see these results for the latest year, as well as the average of the last four years (where available).

The Government School Performance Summary also allows you to compare student outcomes for students at this school with the outcomes of students in all other Victorian government schools.

## What is a *School Comparison*?

The *School comparison* is a new and different way of comparing school performance. It takes into account the different student intake characteristics of each school.

A *School comparison* takes into account the school's academic intake, the socio-economic background of students, the number of Indigenous students, the number of non-English speaking and refugee students, the number of students with a disability, and the size and location of the school.

The *School comparison* measures show that most schools are doing well and are achieving results that are '**similar**' to what we would estimate given the background characteristics of their students.

Some schools are doing exceptionally well with the students they have, and have '**higher**' performance.

Some schools have '**lower**' performance after taking into account their students' characteristics – these schools will receive targeted support to ensure that there is improvement.

Looking at both the student outcomes and school comparisons provides important information about what a school is doing well and the areas that require further improvement.

More information on school comparison performance measures can be found at:

[www.education.vic.gov.au/aboutschool/](http://www.education.vic.gov.au/aboutschool/)

## School Comparison

## What is the meaning of '*Data not available*'?

For some schools, there are too few students to provide data. For other schools, there are no students at some levels, so school comparisons are not possible. Newly opened schools have only the latest year of data and no averages from previous years. The Department also recognises the unique circumstances of Specialist and Select Entry Schools and work is underway to design appropriate School Comparison measures for these schools.

## What is this school doing to improve?

All schools have a plan to improve outcomes for their students. The '*What our school is doing*' statement provides a summary of this school's improvement plan.
